---

With the change in all round infrastructure development and Industrial growth, there is a very high demand for skilled workmen. At the same time, quality manpower with adequate skill and practical exposure is not fully available. In order to bridge this gap FACT Ltd, one of the largest Central Public Sector Organizations in India announces its venture into the area of Skill Development and employment promotion. Three months Certificate course in Heavy Equipment Operation (HEO) is a job oriented course with a lot of emphasis on quality training and practical exposure to real life situations is being offered to the public at large.

**3 months Certificate course in Heavy Equipment Operation.**

Training will be conducted on heavy equipment operation
